

Year 1 created a short film based on our Christian value of CREATIVITY.

The story we used is from the Old Testament book of Nehemiah. We learned how Nehemiah had to be creative in order to rebuild the walls of Jerusalem successfully. The story taught us how creativity is important and that it can present itself in lots of different ways. The children animated the story using lego figures. They then went on to creatively build different types of walls out of lots of different materials. We also made the word *creativity* by making each letter differently and using them to show how we are creative at Christ Church.
