

Year 6 made a film which seeks to show our school vision of *life in all its fullness* as promised by Jesus in John 10:10; a vision that we share with the Church of England. Children in Year 6 went around the school to show the fantastic opportunities and experiences we provide as a school. This involved children doing their work under a camera as well.

We organised the footage captured under six main strands within our vision. These are:

- Life in all its fullness through creativity and positivity
- Life in all its fullness through the widest possible breadth of curriculum
- Life in all its fullness through academic excellence
- Life in all its fullness through spiritual development
- Life in all its fullness through a sense of community and responsibility
- Life in all its fullness through strong, positive and loving relationships with respect and compassion for ourselves and for all others
