

School Council Debate

On Thursday 6th June, children from the School Council went to the Camden council chambers to take part in a debate with school councils from other schools.

Should all schools be single use plastic free?

Christ Church School, Hampstead
A village school in London inspiring life in all its fullness

We were debating whether or not all schools should become single-use-plastic free. The results of our debate were very good, with the majority of children agreeing with us, and none disagreeing.

We were also able to take a look in the Mayor's office at her uniforms, mace and necklace.
