

Reception's trip to the Postal Museum

We had a visitor come to school and introduce our new topic 'The Jolly Postman'. Rosie Postie had an enormous book to read from!

On Monday 24th June Reception class got on the bus and went to the postal museum. We learnt all about the history of the post and went back in time to find out how stamps were invented. We also thought about how the postal service has been such an important form of communication throughout time.

We really enjoyed going on the Mail Rail underground train!

We had a great time exploring Sorted! The soft play area at the museum. We particularly enjoyed using the pulleys to move the mail around and zooming down the postal slide!
