

St Paul's Cathedral- Reception and Y1

On Thursday 11th July Reception and Year 1 went to St Paul's Cathedral to look at a place of worship and take part in a mosaic workshop. Each class were shown around the cathedral to look at the different mosaics beneath the dome. Each mosaic retold different Bible stories such as the Easter story and the Creation Story. Then we went to the section beneath the cathedral to see the mosaic flooring which was in a symmetrical pattern.

During the workshop, we each made our own mosaic on the symbol of a cross using different coloured tiles to make a chosen pattern.
