

Celebrating diversity

During PSHE week we have been thinking about what diversity is and how it makes our community an interesting place. We have read stories and thought about the similarities and differences some of the characters have compared to ourselves. Some classes have also been learning about the Equality Act.

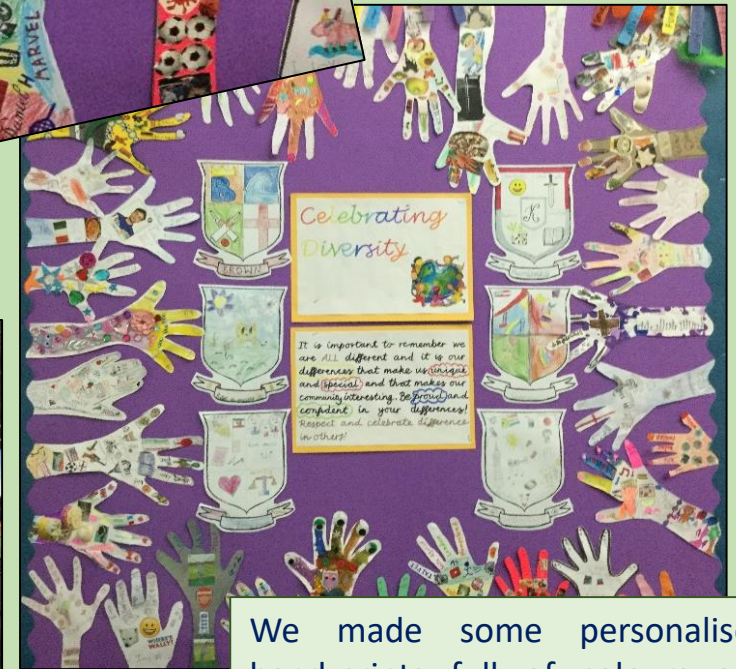

Diversity can mean a difference in opinion. We looked at how we can listen and respond carefully to others and also how to challenge the viewpoints of others respectfully. Year 5 developed their debating skills this week.

Each one of us is unique and wonderful but together we make a fabulous community!

We really enjoyed celebrating dance from other cultures during our Monday morning Wake and Shake! We took inspiration from Indian and Hawaiian dancing.

We made some personalised hand-prints full of colours and interests that represent each child.
