

The wonderful world of... **PAPER**
BY BEATRIX AYRES

Paper is SO useful, it's almost useless for so many things!
Once you know what it is a paper can do you'll never wonder how it's done? I know that I make them quite often

This kind of paper, plain paper, can be used for practically ANYTHING! You can sketch, draw, trace, write, doodle, make cards, write letters, make bookmarks and LOADS MORE stuff with this paper! What's more, they come in SERIOUSLY big packs of around 100 or more pages!

Even if you're not the most artistic person in the world, there are still MANY OTHER uses for paper. One of these is **WIPING**. I am not going to go into the details of just one, but if you're feeling especially towey, you can still use **TISSUES** to wipe those tables away. Another especially useful way you can use paper is **KITCHEN ROLL**. You can use this whenever you need to clean up about ANYTHING.

LINED PAPERS

This is called **ORIGAMI**. This is when you take a square piece of paper and transform it into another shape. Here you can turn it into **LANTERNS, PAPER PLANES, FLOWERS**, and a **FOOT LAMP**. All of those things can be made from a single sheet of paper. It's a great way to spend your time. For more information on origami, visit the website **PAPER OBJECTS**.

THE PEN

Humanity's finest invention

By Beckett Jenkinson Chamberlain

"It just sits around, doing nothing. It's useless", oh really. The pen is a plastic stick with ink in it that costs a pound, yes, but it can do so much more. Imagine what you can do with a single plastic stick. You could just pick up this useless invention and you write something down and it becomes an international bestseller with millions of 5-star reviews. You are one you're a millionaire, is it worth to buy this one pound plastic tube now? So tell me, would you call it useless if it gave you millions?

IT'S NOT USELESS - Beckett

Are you fed up with your monotonous, tedious bottle living in your cupboard? Well, now it is your chance to make things right!

Haven't you always wanted a recyclable bottle just for you? This mind-blowing object will hover around your head and never grow too old for you.

With this bottle of your dreams, you will prevent this world from suffering with global warming and pollution constantly released into the world.

Do you want to be the change we would all want to see?

There are several reasons for using this bottle. It is very light so you can carry it around to any place you want. Secondly, it is made of entirely recyclable materials. Moreover, warm water will remain that way for 12 hours and cold water will stay fresh for 24 hours. However, you must wash it frequently otherwise, it might develop bacteria.

If you are wondering how much this remarkable item costs, it is way less than you think: only £10. Not a lot, given the quality. It is made out of aluminum and there is no sign of plastic whatsoever. It is a fabulous present if you are wondering what to buy for one of your friends or anyone else.

In conclusion, do not be afraid in thinking that you will regret buying this bottle: I assure you will not!

Your sincerely,
Caterina
