

Tech Week: 2<sup>nd</sup> – 6<sup>th</sup> March 2020

KS1 computing trips to the CLC City Learning Centre

Year 2 had great fun creating animated stories of the Great Fire of London.

Year 1 had a really exciting day learning some coding with 'blue bots'. We learnt how to record our algorithms (a set of instructions) using symbols and words. We also got a chance to create a house made from different materials using a program called 'Purple Mash'.

Reception also had a go using Purple Mash and created some beautiful gingerbread men on the computers that looked good enough to eat! Reception also explored remote controlled cars, tills and lots of battery-operated toys, too.
