

Reception's home learning week 1

On Tuesday we read the story 'The Three Little Pigs' and thought about the different feelings each pig might have. We wrote thought bubbles to show their feelings. Lots of us then went to explore the different materials used to build our own houses—we found bricks, glass, wood and concrete, so we are nice and safe!

On Monday we made magical creatures using a range of materials. We tried hard to design out creature first labelling the different parts before making 2D or 3D models! We cannot wait to use them in our writing activities next week!

On Wednesday we explored Capacity! It looked like a lot of fun, exploring different volumes using a range of containers. We learnt that things can be full, half-full and empty. We had challenges to make the bottles equal and well as finding the container that held the most and least water!
