

Home learning in Year 4 Week 2

We've been doing lots of maths!
We have focused on mental addition and subtraction, factors and number puzzles this week.

We've also been busy baking!

Charlotte's cookies!

Torch and lighthouse making!

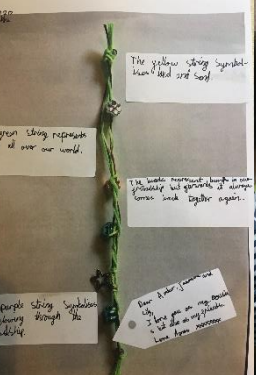

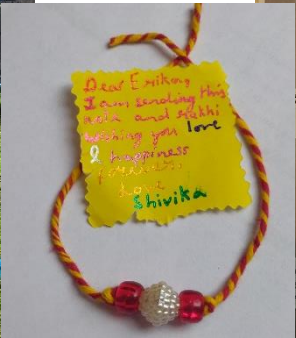

We have used our circuit knowledge to create a working light. Some of us made torches and others made lighthouses.

We are still keeping active! We are doing PE with Joe Wicks and completing challenges set by Mr Spadaccini and Mrs Maguire!

We learnt about the Hindu festival Raksha Bandhan where people exchange Rakhis. We designed our own and some of us were able to make them!

Testing!
