Chapter 9: The Neverbird
 The lost boys were all walking home from a well done fight and didn't know where Peter & Wendy were. They didn't know Peter was very badly wounded and Bob Wendy had fainted while Peter was pulling Wendy out of water even though he was very weak. Wendy pulled her up as top as she could and speaking weakly but explained she flew away on the kite, Sidney Michael etc. This kite couldn't hold 2 people so was already flying Wendy to the kite. Wendy was going out of site when Peter was meaning with the beautiful Neverbird but rise they didn't have the same language. Neverbird was trying to get Peter into its nest that he would float to shore. A little while the Neverbird had shown Peter what he had. Peter found Starkey's hat that he had done it to take his nest instead of the picture Peter was in there. Peter got to shore and on back at how safe & sound with all the other of Wendy. All the boys wanted stay up later was already Wendy didn't let them.

 1.1: To write a precis of what has happened in the last two chapters of Peter Pan.
 Hook fought Peter. The lost boys fought the other two short pirates. The last boys then couldn't see Peter or Wendy and sailed home. They thought they had flown home. Peter and Wendy were a kite. Wendy then tied herself round a kite and flew back home because Peter was bruised. Peter saw a Neverbird giving her nest to him. It contained her eggs. He got in the nest and put the eggs in a hat. He gave her the hat and sailed home.
 I think next Hook is going to surprise attack them.

Year 5 have been a reading a chapter from Peter Pan each week. As we learnt how to write a precis last week, we used our skills to write a precis of what has happened so far. Then we went on to predict what we think will happen next.

Year 5 were given a maths challenge! They had to solve a number of clues using different maths skills to find out who found St George's Lance. They worked with decimals, percentages and measurements which helped solve clues a find out that Lady Matilda found the lance.

Year 5 - Day 10
 3rd April 2020

We have researched what happens in a church like Christ Church on the different days of Lent and Easter. We created stained glass windows depicting important moments that take place on Maundy Thursday or Good Friday.

 1.1: To write a precis of what has happened in Peter Pan in the last two chapters.
 Peter and Wendy were at the lagoon when the weather suddenly turned dark. This meant the Hookish men were here. Suddenly Starkey of the kid in the Brebe Dkhyt there was one other boy. Tiger Lily, Heron's and angels were with Peter. Peter knew he had to save Wendy so he pretended to be Captain Hook. He copied his voice and showed to let her go. He worked but suddenly Hook appeared and before Peter knew it he was in a fight with Hook. After which he was in a nest. The Never bird got all of the boys. Wendy and Peter were going to get back but Peter was badly injured so he couldn't fly. Wendy flew back Peter. Just later in the water waiting to drown suddenly the never bird saw him. She tried to rescue him with her glowing nest. Peter was talking to the bird while he was sitting in the nest. The bird was speaking so slowly Peter didn't realise that he was sitting on the bird's eggs. He lit the egg. Peter sailed on. Peter saw the boy's and reached home. He was so happy he was home.
 Prediction
 I predict that the pirates will come and chase Peter. Peter will then lead them to the underground home of the lost boys.

 Chapter 9
 In the Mermaid's lagoon Peter, John, Michael and the Lost Boys were all napping on the rock accompanied by Wendy. The pirates arrived with Tiger Lily aboard. Peter imitates Hook and asks the pirates to release Tiger Lily. The pirates believe Peter is Hook so they release Tiger Lily. Captain Hook arrives and swims through the water. Hook gets mad at Smee and Starkey for letting Tiger Lily go. The pirates find out that the voice is Peter. As a result of this they get into a fight. Peter and Wendy both get involved. A kite comes and Peter ties it to Wendy she floats off.
 Chapter 2
 Peter was left alone once the Mermaid had gone to bed. The water was rising and it was at his feet. Peter saw what he thought was a piece of paper of a part of a kite. Actually, it was the Neverbird nest. By the time Peter had recognised the bird the bird was exhausted. They could not understand each other's language so it took a long time to understand each other but eventually Peter understood and climbed into the nest. Peter put the eggs into Starkey's hat and sailed off to the shore. The bird liked the hat so it continued to use it!
 Prediction
 I predict that the pirates will come and chase Peter. Peter will then lead them to the underground home of the lost boys.
