Online Safety

When your
online you must
never tell
anyone your
passwords, your
phone number,
school and where you live.

If anybody sends you a rude comment you
should tell a parent you trust
you could block them so
they can't send a rude
comment anymore.

If by accident you send
somebody a rude comment
straight away tell a adult.
It's safer to chat to a friend you know in
real life and trust.
