### This is Your Day 5<sup>th</sup> May 1945

BY MILES

My dearest friends, today this bloody War has come to an end. Hostilities will officially end at one-minute past midnight tonight. We have suppressed tyranny in every way possible and today is Victory in Europe! It is our Nation's victory. Let us rejoice and have peace between other Nations once more!

Our Nation has remained in good hands with our industrious women replacing our dauntless men at war in the factories and the fields. Let us remember our fearless soldiers and our loyal allies, fighting beside us. This day will be known as VE Day. The horrific, horrendous, hideous war over and we deserve to celebrate.

Unfortunately, we will have to ration our supplies for some time to come, but I strongly believe that we will get back to full health in no time. We will build our cities taller, stronger, bigger than before. We will plough our fields and expand our factories and rebuild our Nation to be even stronger than before. We will not give up, and we won't give in.

Your loved ones may not come back immediately - there is still work to be finished and the War in the Pacific continues. But make no mistake, VE Day, this day, is our day to celebrate! God save the King!

As shown below by their Vision and calling statements, you can see that LCM reach out to any area in London where people who wouldn't normally be helped are and try to help them. They also want to tell them about Jesus.

## OUR CALLING

Our calling is to go to the least reached of London – those living in poverty, on the margins of society or from other cultures. The gospel is at the heart of all we do, because London needs Jesus.

## OUR VISION

We exist to serve the church of London in sharing the love of God and the good news of Jesus Christ with the least reached of London.

community L.L. to improve the meaning of 'community'

BALLET is important to me because my friends dance there with me. I would improve it by learning 5th position early.

family is important to me because they support me. I could improve it by making us get along better.

class is important to me because my friends always help me to go away and understand my problems. I could improve my friends by not having EVERYONE getting along
