Total		£30.10

This week in Year 3 we have been learning about an important topic – MONEY! Our maths project has been to plan a birthday party with a budget of £25. Some of us managed to keep to the budget!

Audrey also found that she could bake a caterpillar cake for cheaper than it would cost in the supermarket!!

I was also very impressed that Marie came up with a “cheap” party and an alternative “expensive” party!

Perhaps we have some budding events planners in our class?
