

Year 5's new science topic is Earth and Space.

. Did you know that in Greek and Roman times most people thought the Earth was flat!

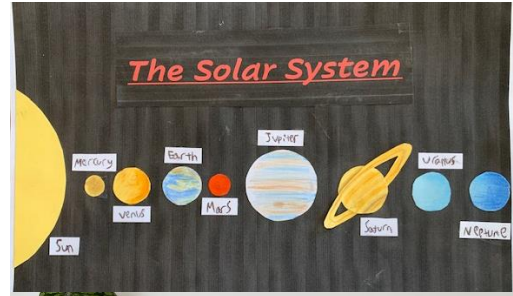

We learnt there is an order to these planets. We created our own artwork to show the order of the planets in our Solar System.

We started by creating our own topic pages including information we already knew.

We learnt that the Earth is spherical and is part of collection of planets known as the Solar System.

Year 5 - Day 15, 16 & 17 Week beginning 8<sup>th</sup> June
