

Half term was a little different this year. We couldn't do all the things that we normally do but Year 5 did do some amazing things.

Some have been exploring the great outdoors. Walking along deserted beaches and watching wildlife enjoy the peace and quiet from humans!

## Year 5 - Half term activities

Some have been joining in with cooking courses, providing amazing taste treats for their families.

Some amazing art has been taking place during Daisy's dad's online art classes. You can even take part if you don't have a canvas or paper!

Some have been getting creative. Inspired by their comic collection some children have been writing their own comics and others have written short stories and entered them into competitions!

Others have embraced the new normal and even had social distanced playdates on the heath.
