

Year 6 D&T project Autumn 2020

The skills we aimed to perfect were the following:

- threading a needle
- combining fabrics with blanket stitch and running stitch
- sewing on a button
- finishing with other embellishments

Blanket stitch

Our D&T project for this term was to make a sewn 3D Christmas decoration. We researched, designed and made a sewn decoration with the given resources.

We then evaluated our pieces, thinking about what went well and what we thought we could improve on.

We then made a second decoration. We were very happy with the final results and felt that we really improved by making a second decoration.
