

Exploring music and languages

By Reception

This week we had lots of fun being explorers! We listened to what a scale was in music and travelled around the world to see how we could greet people in different countries. We also learnt how to communicate by using sign language, we really enjoyed sharing our sign song called Five little ducks with our families!

We had a go at making our own water xylophones to listen to how the sound (pitch) went higher and lower!

We learnt how to say hello in 15 different languages before making some great greetings posters!
