

Plants By Reception

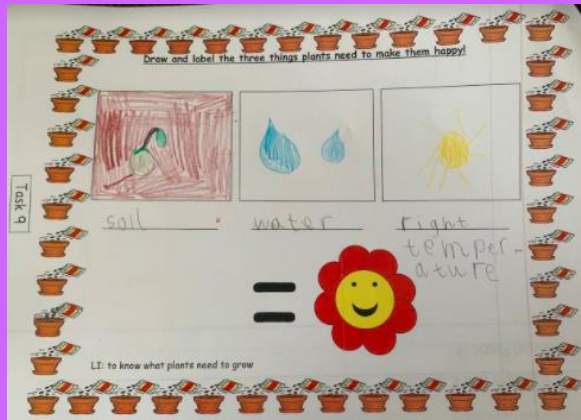

This week, alongside learning all about Jack's adventures in Jack and the Beanstalk, we have also started to explore and learn about plants, just like a beanstalk! We cannot wait to see how big our beanstalks will grow!

We looked at what makes a plant happy and healthy!

On Friday we learnt about the different names for parts of a plant. We found out that the root collects nutrients from the soil!

We planted beans and started a bean diary!
