

# Year 6 gratitude

I am grateful for the school for carrying on the work by home learning. I'm grateful for my parents for helping me through my exams and am grateful for the NHS for helping with coronavirus.

I'm grateful for technology .

I am very grateful that I am still able to learn during the pandemic as well as continue to keep in touch with my friends.  
Google classroom has been very useful and the Zoom meetings have helped me communicate with others.

Whilst we are at school, Year 6 share what they are grateful for each day and we add it to our gratitude diary. Year 6 were asked to email in things that they are grateful for in home learning.

I have been very grateful for my Family who helped me through these hard times.

One thing I'm grateful for is the vaccine for Covid-19 because without it we would all be in Lockdown for a very long time.

One thing I am grateful is that all my family is safe and that we have the technology to call people and see how they are.

I am grateful for the sunny weather when it comes, as walking in the sun is much nicer than walking in the rain!
