

# Capacity By Reception

We carried on learning all about measurement this week and focused on capacity.

We learnt different language to describe how full something is!

On Wednesday we worked with a wizard to work out the capacity of different potion bottles. We learnt about more and less.

Capacity: Full, Half-Full and Empty  
Name Ruby  
Write the labels for the cups below and draw the amount of water in the cups. Make sure they are in the correct order from fullest to emptiest!

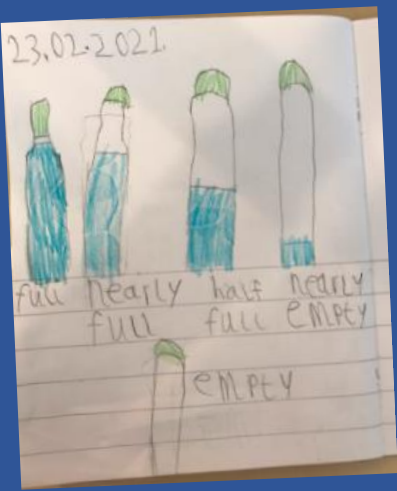

full    half full    empty

Which bucket will hold the most? Circle it.

Capacity

full    nearly full    half full    nearly empty    empty

We all had a great time exploring capacity in our sinks with lots of different containers!
