

Keeping ourselves safe By Reception

This week we learnt about how we can be safe and who can help to keep us safe in our homes, at school and in the local community.

We really enjoyed learning about fire safety and making our own fire engines!

PC Sheppard spoke to us about keeping safe in our local area and taught us how to contact the police in an emergency. We really enjoyed making our own police radios, too.

Dr Anna and Dr Jane taught us all about medicine and hazards in the home. We loved dressing up and helping our own patients!
