

RE-Why are churches important to Christians

By Reception

We have been thinking about our big question and looking at some key features of a Christian Church. We also thought about other places of worship and looked at similarities and differences.

We took a virtual tour of a church to learn about the different things we would find in a church.

We made posters to show the different reasons someone would visit a church including celebrations such as baptisms.

We thought about what a community is and how it feels to belong.
