

Sunday 2nd September 1666

Dear diary;

I heard a crackling noise outside I looked out of my window and saw a great fire.

My dad has closed our bakery and ran outside to help put out the fire.

He only had one bucket of water. I hope he will be ok.

Sunday 2nd September 1666

Dear diary,
I was woken up by the screaming of my parents, calling me to come downstairs quickly as we needed to leave fast. Out of the corner of my bedroom window I could see an orange light, and when I looked through the curtain, I was bewildered to see a raging fire burning down homes and coming near to ours. I was scared and worried. How will we survive?

Sunday 2nd September 1666,

Dear diary,

Today there is panic in the city. A fire started in Pudding lane bakery shop. Now the fire is spreading really quickly. My parents are very worried and are packing our belongings. We are getting ready to leave our home.

I can see the fire burning in the distance. The air is filled with grey smoke. I feel very scared of the fire, and I don't want our home to burn down.

Sunday 2nd September 1666

Dear diary
I woke up, feeling hot and I didn't know why. I looked out the window and I saw red all over. I went down steps and half of the house was on fire. I got my things and went out side. I quickly went to the river to find a way across.

Year 2 – Home Learning

Week beginning January 25th, 2021

This week we learnt about eyewitness reports in history. We read Samuel Pepys' diary and then wrote our own entries imagining we were witnessing the fire. These are just some of them.
