

Year 4 Art Appreciation

This week, Year 4 looked at a painting from 1533. The painting was 'The Ambassadors' by Hans Holbein. We were asked questions about the painting that required us to look in careful detail and also think about what we already knew about this point in history.

Art History week 1 Tuesday 23rd February 2021

1. Henry 8th and someone important who works for Henry the 8th. The artist showed that they are wealthy because they're wearing nice clothes.
 2. The objects in the picture, that show they're clever are the globes and musical instruments.
 3. The things at the top are to do with the sky and the things at the bottom are to do with the earth and music.
- The unicorn is in the top left corner.
- It looks like the picture in the foreground looks a bit like a lady.

After answering some questions, we were challenged to create our own arrangements. The objects in the painting were all considered state of the art for their time, so we followed this theme for our own pictures.
