

When to call the emergency services ...

2. Ambulance - When somebody is hurt and is lying on the floor when somebody gets into their car.

3. Police - When somebody crosses their car when somebody steals something.

4. Fireguard - When somebody is drinking when somebody is hurt on their...

Keeping Safe!

How to respond to an emergency situation ...

Ask someone else if anything is in the way and if you and the bag are in a safe location where they won't get knocked around too much.

Tie your dog up so he or she won't get in the way.

Ask the bag what happened.

Ask him if he thinks he can stand up. If he says yes then help him get his hands and ask his parents or carers what to do. If he says no reassure him that everything will be alright. Ask him what you think you should do.

Ask him if it is very painful so you should call the ambulance or he would be okay and you should just go and get his parents if he told them his address.

If he says it is very painful call 999 and answer these questions as quickly and clearly as possible. Then wait with the bag until help arrives.

Year 5

Spotting potential hazards!

Safe knife and scissor skills!

As part of our whole school PSHE week all about keeping ourselves safe and healthy, we learnt that it is most important to ensure the safety of ourselves and others when faced with an emergency situation. We also learnt about how to assist in an emergency by calling for help correctly and used information from St John Ambulance to help with our learning. We also thought about safety when cooking.
