

On the National Day of Reflection, marking the anniversary of the first school closures and lockdown, we reflected on all the changes and losses which have taken place over the past year. We also looked ahead with hope to brighter times, with every child planting a sunflower seed to grow and everyone joining in with planting flowers, bulbs and vegetables around our school site. We are looking forward to them all blooming and growing in a brighter spring and summer ahead!

We also planted up tubs of flowers and shrubs to give to Henderson Court, our local Age UK centre.
