

PSHE Week Year 5

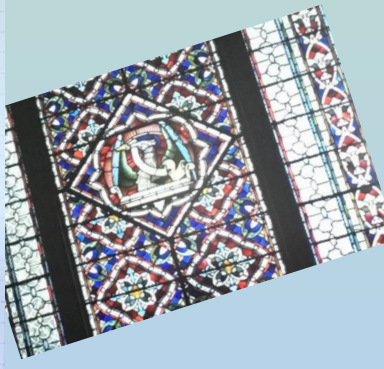

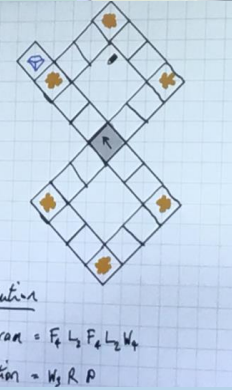

In Year 5, we learnt lots about money. We thought about the different ways people can pay for things, the choices people have about this, the different ways people can keep track of money and also the different attitudes people have towards spending and saving money. We also learnt about the things that may influence these decisions. We learnt what investments are and about the risks involved with money. We played a board game and imagined we were investing money and learnt about potential gains and losses. We also thought about the impact people's spending decisions can have on others and the environment as well as learning about budgeting. We thought about people's needs and wants and then worked in groups to devise a monthly budget based on a given wage and set of outgoings; we even had to work out the cost of a weekly food shop!

We also learnt lots about rules, laws and democracy this week. We had two virtual workshops with the Houses of Parliament where we learnt about the House of Commons and the House of Lords and how these both work. We also thought about the reasons for rules and laws and the consequences of not adhering to these.

We were lucky enough to speak to a whole host of professionals about their careers via zoom. The speakers shared interesting information about their roles and we had the opportunities to ask lots of questions to discover more. We heard from people from a range of professionals, for example a judge, a psychiatrist and an entrepreneur!

We thought lots about those in our local community, making thank you cards for NHS workers and recording songs and poems to send to Henderson Court.
