

I TRIED SOMETHING NEW

As part of our whole school 'Try Something New' week, children in Year 4 and 5 learnt about the Batik method of using wax and dye to decorate cloth. We used this method to create our own tote bags, using glue instead of wax as our resistant material.

Batik art in Year 4 and 5

How did you feel beforehand?
"I had never heard of the method before so I was excited to give it a go!"
"I was nervous about adding the glue in case I did it wrong."

How did you feel afterwards?
"I love my bag and the way it turned out! If I did it again I would change a couple of things, now that I fully understand the process."
