My goal is to become a mountain climber and reach the summit of Mt Fuji.

My goal is to become a fashion designer and design a runway fashion show.

Titania has sunny golden curls and beautiful baby-blue eyes that shimmer in the moonlight. A glamorous long golden gown that has only the best and most beautiful flowers on it twinkles in the sunlight. The powerful fairy queen sings sweetly her page and when bored she picks flowers and spends her day fluttering gracefully around the forest.

My goal is to become a dancer and perform in front of thousands of people.

You reminded us that setting goals (big and small) is good for our mental well-being and you definitely aimed high with your personal goals for the future!

Below tall, towering trees, a bubbling sparkling crystal-clear stream flows through rays of dappled sunlight. A squirrel bounds down a damp mossy river bank, chasing another one of its kind as the warm sun rises. The dew drops of the morning cover a spider's web, leaving animals to stare at the beauty of it as they pass by. Nearby, fields of lavender, foxgloves, violets, forget-me-nots, bluebells, poppies, roses and many other flowers attract busy buzzing bees. Below the branches of aged trees, fluttering leaves float in and out of beams of sunlight that ripple through jade-green leaves.

You read us your vivid descriptive writing inspired by all your work on 'A Midsummer Night's Dream'.

My goal is to become a professional footballer and score the winning goal in the Champions League final
