

Reception's CAP project-Autumn 2021

Linking it to our happiness Project

Belonging

We linked our arts project to the theme of belonging-being part of something bigger! We thought about what it means to be part of a team and also how valuable it is to be part of a community. We listed all the different clubs and groups we belong to!

We found out that we all belong to the Christ Church Primary School community and to represent the start of our school journey we used the logo on our art to represent this. We then drew ourselves and three new friends to add to our picture!

Our Inspiration Pier Mondrian

Mondrian was a Dutch painter. He developed his own unique style using black lines and only a few primary colours to create pictures.

Mondrian called his style "new form" in Dutch. The style was based, he explained, "on an absolute harmony of straight lines and pure colours underlying the visible world."

His work is in lots of famous art galleries around the world.

Learning about colours

We really enjoyed learning the names of lots of different colours.

We learnt that Mondrian used primary colours.

Primary colours are
red blue yellow
