

Y3 Arts Project

Family and Friends

Year 3 learnt about how an American artist, Faith Ringgold, creates autobiographical quilts and illustrations containing panels inspired by memories or scenes with her family. Year 3 thought about how staying connected with their families and friends supports their well-being and happiness and created their own quilt scenes from their own lives.

We drew memorable scenes from time with our families and then used carbon paper to monoprint these on to our 'quilt panels'. We painted these scenes with watercolours. Then we selected collage materials for their visual and tactile qualities to collage a border around our scenes.
