

London Transport Museum

Year 1 went on a trip to the Transport Museum. While we were there, we were able to see how transport has changed over time.

The sedan chair was a very old form of transport.

The Omnibus was one of the first buses. It was pulled by horses.

The London Underground was the first underground passenger train network in the world. Now we can travel all around London using it.

We had a great day, but were very tired on our return journey, using the London Underground!
