

Week 7 Belonging

The theme of belonging is about finding meaning which is bigger than or beyond ourselves. Sources might include our relationships with others, especially those close to us; a religious faith; our work; creativity; our hobbies or nature.

The children explored groups that they belong to outside school and how doing things with others can bring happiness. We learned about the famous people who our four school houses are named after and how important belonging to our school is. We made a giant jigsaw with children, parents and staff represented on it, showing we are all part of a school family.
