Data Retention Policy

May 2021

School Records Management Policy

Christ Church School recognises that by efficiently managing its records, it will be able to comply with its legal and regulatory obligations and to contribute to the effective overall management of the school. Records provide evidence for protecting the legal rights and interests of the school, and provide evidence for demonstrating performance and accountability. This document provides the policy framework through which this effective management can be achieved and audited.

Scope of the policy

This policy applies to all records created, received or maintained by staff of the school in the course of carrying out its functions.

Records are defined as all those documents which facilitate the business carried out by the school and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.

A small percentage of the school's records will be selected for permanent preservation as part of the institution's archives and for historical research. This would be done in liaison with the County Archives Service.

Responsibilities

The school has a corporate responsibility to maintain its records and record keeping systems in accordance with the regulatory environment. The head teacher has overall responsibility for this policy.

The person responsible for records management in the school will give guidance for good records management practice and will promote compliance with this policy so that information will be retrieved easily, appropriately and in a timely way.

Individual staff and employees must ensure that records for which they are responsible are accurate, and are maintained and disposed of in accordance with the school's records management guidelines.

Relationship with existing policies

This policy has been drawn up within the context of the school's:

- Freedom of Information Policy and Publication Scheme
- Data Protection Policy
- Data Privacy Notices
- and with other legislation or regulations (including audit, equal opportunities and ethics) affecting the school.

Safe disposal of records

Where records have been identified for destruction they will be disposed of in an appropriate way. All records containing personal information, or sensitive policy information will be shredded before disposal using a cross cut shredder. Any other records will be bundled up and disposed of to a waste paper merchant or disposed of in other appropriate ways. Records are not put in the dustbin or a skip.

The Freedom of Information Act 2000 requires the school to maintain a list of records which have been destroyed and who authorised their destruction.

Members of staff should record at least:

- File reference (or other unique identifier).
- File title (or brief description) and number of files.
- The name of the authorising officer and the date action taken.

This should be kept in an Excel spreadsheet or similar suitable format.

School closures

It is the responsibility of the Local Authority [LA] to manage the records of closed schools until they have reached the end of their administrative life and to arrange for their disposal when required.

There may be a number of different reasons why schools close which may affect where school records need to be stored.

- If Christ Church School has been closed and the site is being sold or reallocated to another use then the LA should take responsibility for the records from the date the school closes.
- If two schools have merged and function as one school, it will be necessary for the new school to retain any records originating from the two schools for the appropriate time.
- If Christ Church School closes and subsequently becomes an Academy, the records relating to the pupils who are transferring to the Academy will be transferred. If the Academy is retaining the current buildings, then all records relating to the maintenance of the buildings should also be transferred. All other records become the responsibility of the Local Authority.

The purpose of the retention guidelines

The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use. The retention schedule lays down the basis for normal processing under the Data Protection Act 2018, the Freedom of Information Act 2000 and the General Data Protection Regulation 2016.

The retention periods are informed by other legislation such as Education Act 1995 and the Limitation Act 1990. The Information Management Toolkit for schools has also been consulted.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention schedule refers to record series regardless of the media in which they are stored.

What happens with records once they have reached the end of their administrative life

Destruction of records:

Where records have been identified for destruction they will be disposed of in an appropriate way.

Transfer of records to the Archives:

Where records have been identified as being worthy of permanent preservation, arrangements will be made to transfer the records to the Archives.

Transfer of information to other media:

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as digital media. The lifespan of the media and the ability to migrate data where necessary will always be considered.

Review of the policy

This policy will be reviewed every three years, (or when relevant legislation changes), to ensure it is an accurate reflection of current guidance and best practice.
