

Each class developed their 'working scientifically' skills with an exciting workshop led by experts from the Francis Crick Institute. May 2022

**Year 4** learnt about sound and vibrations, planning and carrying out a practical enquiry to establish whether it is easier to work out the direction of sound using one ear or two.

**Year 3** used their learning about skeletons and their accurate measuring skills to carry out a simple enquiry into whether femur length affects how far we can jump. They also had the opportunity to explore x-rays and fossilised bones.

1 ear	1, 3, 8, 5, 4, 6, 2, 1, 1, 3, 1, 2, 1, 3, 0, 1, 2
2 ears	2, 1, 0, 0, 2, 0, 1, 1, 0, 2, 0, 7, 2, 1, 0, 1, 0
