

Metro Bank!

Year 5, May 2022

As part of our PSHE week work, we have been learning lots about money. Metro Bank sent some staff to visit us in school to teach us about banking, savings and budgeting.

A few days after their visit to us, we went to Metro Bank on Tottenham Court Road. Here, we learnt more about how a bank works. We were able to use the money machine and even got to look inside the vault! We learnt about safety deposit boxes and how banks work to keep people's money and possessions safe.

We thought about the different ways people can pay for things, the choices people have about this, the different ways people can keep track of money and also the different attitudes people have towards spending and saving money. We also thought about people's needs and wants and how this influences their spending choices.

We even got some treats to take back to school!
