

# Superb assembly, Year 3!

May 2022

Well done for presenting such an interesting assembly, Year 3! You taught us lots about all your science learning and how you have been investigating which minerals radishes need to grow and whether the length of your femur affects how far you can jump. You also told us all about your learning about Islam and your visit to Regent's Park Mosque.

We loved your Quentin Blake book covers - you all demonstrated some super sketching and watercolour skills.

We enjoyed hearing some of your excellent poems, descriptions and potions inspired by Roald Dahl.

First, add some terrifying tarantulas. Then, with caution, stir in some boiling water. After 5 minutes, add in some fireworks. Gently, add in some sparkles and dog spit. Finally, add a dollop of pixie dust.

We were very impressed with your musical performance – you played together brilliantly!
