

June 2022

Eco Week

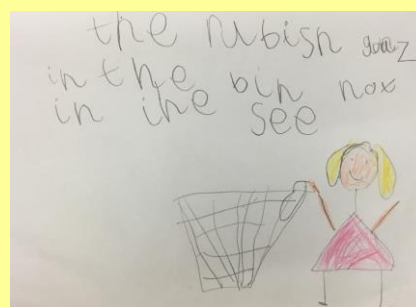

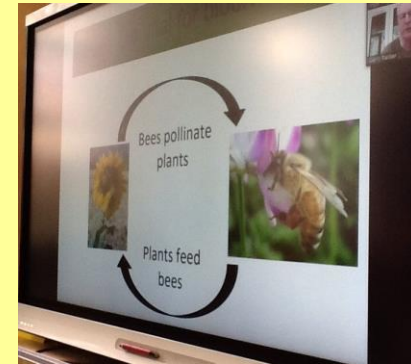

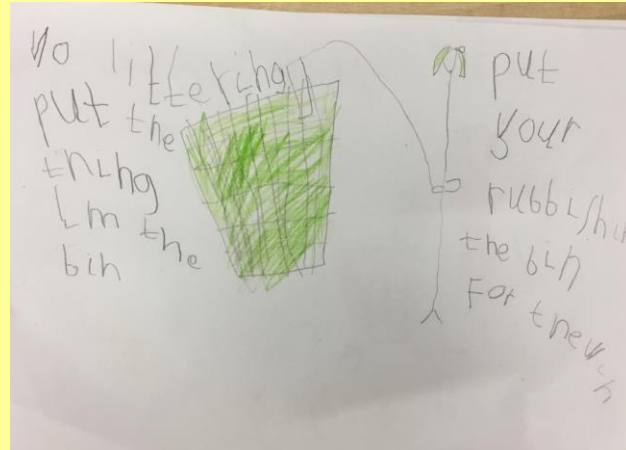

We learnt why bees are so important to our world and really enjoyed trying honey and making our own models of a bee! Gary Packer, a Somerset beekeeper told us about the queen bee and how bees help pollinate plants!

This week, Reception have been learning all about litter and how we can help our planet by recycling and making sure litter goes into the bins.

We read the story of the Messy Magpie before learning what happens in a recycling centre! Veolia came and spoke to us about the work they do with recycling and turning waste into reusable energy. We did a litter pick of our local area!

We learnt about the effects of littering on the oceans and made beautiful fish from recycled materials
