

Year 4's trip to the Royal Mews

Year 4 visited the Royal Mews at Buckingham Palace as part of our learning about the Queen's Platinum Jubilee. We learnt even more than we knew already!

We were lucky enough to look at lots of the different carriages that the Queen uses. We found out about when they were built and which special occasions they have been used for. We even got to see some horses!

We took part in a workshop where we found out about the Queen's coronation and the different crowns she wears for different purposes. Some of them are very heavy! We also learnt about previous Queens who celebrated long periods of time on the throne.
