

Well done for a super class assembly, Year 2!

Thank you for sharing so much of your learning with us, Year 2. We heard all about your learning about Buddhism in RE and, for Science, you taught us all about the seven life processes which all living things share. We also heard about your learning about renewable energy in our Eco Week and we saw the wind turbine models you made.

We loved seeing your beautiful art work. You explained how you used water colours to paint your 'happy place' inspired by your learning about Buddhism. You also shared your learning about Henri Matisse and show us your leaf paintings made using your own negative stencils and direct printing with real leaves. They are stunning!

We enjoyed your super Red Riding Hood song, too. It had great expression and acting while you were singing!

We heard some super writing – your alternative endings for Little Red Riding Hood were very funny and imaginative!

When the wolf got there he looked into the clean window and grandma was inside. He went in through the window and tied her up and put her in the cupboard and hid her in the clothes. Then little red riding hood came and she recognised the wolf and called the woodcutter. He cut the rope on grandma as quick as a flash so the wolf couldn't see him doing it. Then he tied the wolf so tight that he couldn't breathe.

When the wolf arrived at grandma's house he slammed the brass knocker onto the ancient, wooden door. Not a sound came from the other side. He tried opening the door by twisting the handle, but the door wouldn't budge since it was locked. The wolf broke off a branch from a nearby oak tree. He hit the door a few times before it gave way. At the deafening sound of her door being broken open grandma immediately woke up. She let out an ear-piercing scream before being locked up by the wolf.
