

Reception's CAP project-Autumn 2022

Our Inspiration **Kehinde Wiley**

- He is an African American portrait artist, who in 2017 painted former US President Barack Obama.
- He enjoys painting real-life portraits with a contemporary twist.
- His use of colour and patterns has inspired Reception to use them in their own artwork!

First we made patterned backgrounds on a computer app. We drew in a small square which was then repeated, making our patterns!

Learning about colours

We really enjoyed learning the names of lots of different colours before exploring some colour mixing.

We learnt that primary colours are
red blue yellow

We used poster paint to make our portraits, using a mirror to check shapes and colours of our facial features!
