

Year 1 DT project – Nativity puppets

Year 1 created some beautiful Nativity character hand puppets using thread and felt. First, we researched existing puppets and looked at how they were joined together. Next, we practised our sewing by joining two pieces of felt together using an overstitch. Then we made a template for our hand puppet by drawing around our hand. Finally, we stitched together the two pieces of cut out felt shaped by our template and added decorations such as felt wings, hands, stars and gems. We made our puppets to sell at our Christmas Fair!
