

Fantastic assembly, Year 6!

Thank you for presenting such a brilliant class assembly, Year 6 – you taught us a lot!

You taught us lots about time zones, lines of latitude and longitude and where in the world you can find different natural resources and why. You also shared your models showing us all your learning about different types of settlements.

We loved your Ancient Greek pots, inspired by the pottery you saw in the British Museum, and your artist studies about Frida Kahlo were very impressive, too.

We heard all about your learning about the different achievements and influences of the Ancient Greeks, including democracy, scientific and medicine discoveries, art and architecture. You also shared your learning in RE and at the Jewish Museum about the Jewish Passover meal and Seder plate.

January 2023!

You finished your assembly with a fabulous ensemble performance of 'Seven Nation Army' including at least nine different instrument parts! Wow!
