

Reception's PSHE week

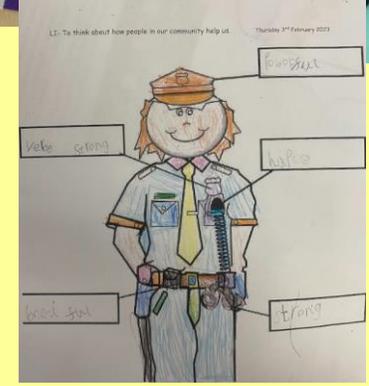

With the help of the pantosaurus, we learnt about privacy and making sure to speak out if something or someone makes you feel uncomfortable.

We learnt all about keeping our teeth clean, healthy and strong. We really enjoyed the role-play dentist and making our own tooth fairy mirror reminders to look after our teeth. Some of us made wonderful step-by-step instructions for teeth brushing!

We learnt about road safety with the help of the TLF sock puppets! We loved practising our road safety skills to STOP, LOOK, LISTEN AND THINK when walking to the Heath and learning all about scooter safety with the Camden road safety team!

We learnt about the different ways we can have a healthy body. We looked at how exercise, sleep and food can make you strong! We really enjoyed learning about exotic fruit and vegetables with Caterlink- we loved trying different fruits like a papple (that's a pear crossed with an apple) and we sorted foods into healthy and unhealthy snacks!

We learnt about people who can help us, including about keeping safe around medicines with Dr Jane and Dr Anna and Talking to PC Richie about how the police can help us. We really enjoyed listening in to his radio!
