

BUPA Coding Day

Children in Year 1, 2, 3 and 4 took part in a coding day. We started with an assembly, learning about AI the robot and that they needed to be coded to do specific tasks

We went back to our classrooms and completed a range of unplugged activities, coding our "robots" to collect different items that would make a healthy lunch, reminding us about our Science and PSHE learning about the importance of a healthy diet.

We had a lot of fun 'coding' each other. It was similar to the type of coding we have done with BeeBots in the past.
