

Visit from an adventurer!

We were **all** inspired by a talk from explorer and adventurer, Nick Carter, who has (amongst many other challenges) climbed Mt Everest, swum the English Channel, run across the Sahara Desert and lived with the Naga tribe in India!

We heard about how Nick made changes in his life to prepare himself for these challenges and he inspired us to be tougher and braver, as well as to be able to problem solve, work as a team and help others to turn our own dreams into reality.
