

Friendship bracelet swop!
 As part the Friends and Family week of our Happiness Project, we have all been making friendship bracelets to swop with a new friend in our school. We know that staying connected to our friends and family helps us all feel happier and provides us with support when we need it.

November 2023

We have also been writing letters to family members we don't see very often - to keep in touch and spread a little happiness. Our letters are going all over the world!
