

Coeliac disease

As part of our week celebrating how we are all unique and different, children from Year 1-6 shared presentations telling their classes 'what's special about me'. We learnt about cultures and backgrounds from around the world, special and life-changing moments, neurodiversity and individual medical conditions and the importance of faith and beliefs too. Thank you to everyone for sharing such special and important things which make you, you!

I also feel special because...

I was very lucky to be able to emigrate from the Philippines to the United Kingdom as it is very rare because the process is very long and difficult. But I was very fortunate and emigrated to England with my mum!!

I'm also a little special because I am the only Filipina in the whole school and look different to everyone else. I am also the only person that can speak Filipino in my school.

I Believe In God
