

Super assembly, Year 2!

You presented all your learning so clearly and confidently and we loved your songs, too!

You told us all about Florence Nightingale and why she is such a significant figure in history. You shared your learning about the seven continents and five oceans in Geography, too.

We loved your two songs – a super ensemble performance of Tue Tue, keeping time together expertly, and a great song to help you remember everything you have learnt about Florence Nightingale!

You shared some excellent writing inspired by the Harry and the Dinosaurs series.

You also shared some of your super stop motion animations of the Great Fire of London, created as part of our Try Something New week.

November 2023

I can hear the rustling of the wavy grass. I can feel the bumpy old tree trunks. I can see the muddy lakes. I smell the green moss that sits on old mighty trees. I can see orange foxes with beautiful fluffy fur running across the street. I can hear the blue flowing river and the whistling wind. I can see white clouds floating in the beautiful blue sky.

At the beach I can see the sparkling blue water. I can feel the soft yellow sand and I can smell the fresh breezy air. I can hear the crashing of the small clean waves.
